

Canaport LNG Sponsorship Guidelines, Criteria and Considerations

Canaport LNG is committed to continuing our support of the Saint John community through sponsorship of local interests -- activities, events and programs that will have a meaningful impact on our community.

We invite all interested parties to please contact us with their proposals for our sponsorship consideration, provided that the proposed project directly benefits the Saint John community and is focused in one of the following three areas:

- Education
- Environment
- Healthcare

Recipients will be selected on the merits of their proposal and its potential contribution to the community of Saint John.

The Application Process

To be considered for sponsorship by Canaport LNG, a brief proposal letter should be submitted. Proposal letters should include:

- A description of the proposed work and how it will be conducted
- Information about the organization conducting the project
- Who and in what way Saint John community members will benefit from the proposed opportunity, i.e. problems and issues the proposed project will address
- The names and curricula vitae of those engaged in the project
- A detailed project/organization budget, including other sources of funding
- Period of time for which funds are requested
- Other relevant project or organizational information

Proposal letters should be e-mailed or mailed to:

Saint John, NB
E2L 3T5

Sponsorship proposals are considered throughout the year. Applicants may expect to receive an indication of proposal status within six to eight weeks and in-person meetings may be requested for further discussion. If the proposal is selected to receive support from Canaport LNG, the approval process is generally completed within three months.

Canaport LNG receives numerous requests from local organizations to sponsor and support a wide variety of community projects, events and programs. Funds are limited in relation to the great number of worthwhile sponsorship proposals and requests.
